Ops IG interests:

- Validation & Monitoring

  - ▷ Ensure IVOA standards have validators (curate IvoaValidatorsSummary)
  - ▷ Coordinate validation/monitoring of VO services
    PADC (Paris), Euro-VO (ESAC), HEASARC (NASA)
  - ▷ Monitor overall health of VO ecosystem (statistics)
  - ▷ Monitor individual services (detect and address failures)
  - ▷ Gather service usage statistics overall and by User-Agent
  - ▷ Feed back operational concerns/observations to standards development

- Operational aspects of IVOA hot topics

  - ▷ Science Platforms
  - ▷ Authentication and Authorization

- Operational miscellanea

  - ▷ HTTPS, IPv6, 3xx redirects, ...

- VO Operations under lockdown?

No Ops-specific sessions this week

- Ops IG still provides forum for discussions
- Please raise issues on ops@ivoa.net or with Mark/Steve
- Possibility to organise ad hoc telecons on topics of interest
