Product Type Vocabulary Review

Content

SimpleDALRegExt contains the vocabulary <https://www.ivoa.net/rdf/product-type>, which is mainly derived from what `obscore` has for its `dataproduuct_type` column.

However, the definitions of this vocabulary needs to be reviewed, as the concepts so far are not (obviously) either disjunct or strict subsets. In this talk, I will review the problems and propose improvements.

Preferred talk time
