

## *VOTable-1.2 proposed as REC*

- VOTable-1.2 is now proposed as an IVOA REC by the Exec – should therefore be soon among the IVOA Recommendations
  - The VOTable WG is entering now a "maintenance mode" – if necessary the WG can be reactivated
  - It is a pleasure to thank all those who participated to the evolutions of VOTable during all these years via email and/or in lively discussions and meetings
