

Plenary 2

Data Curation and Preservation IG

André Schaaff & Tim Jenness

10 November 2018

IVOA College Park, 8-10 November 2018

DCP Session

- Thanks to all the speakers and to the audience for their questions, remarks, ideas, ...
- 50% talks + 50% discussion => a good session !

Speaker	Title	Materials
André Schaaff	Introduction	pdf
Gilles Landais	DOIs into VizieR	pdf
Chenzhou Cui	China-VO PaperData Repository	pdf
André Schaaff	DOIs in RDA	pdf
Tim Jenness	Possibilities for DOI handling of queries for LSST-scale databases	pdf
All	Discussion around DOIs	...
All	Main topic(s) for the next Interops	...

DCP Session outcomes (not exhaustive)

- The granularity of DOIs requires much thought in regards to data archives.
- A DOI is not always necessary but does give additional usage statistics.
- How to issue a DOI for an entity that exists elsewhere (e.g. the Gaia catalogue) is an open issue.
- DOIs for queries of large catalogues can be useful for reproducibility. Be careful if the results from the query might differ over time.

Roadmap

- Minutes of the meeting to publish
 - Report at ADASS BoF 4 on Monday evening
 - Draft of an IVOA Note
-
- You will find several links on the DCP session page.
