Theory I.G.
Opening session

Franck Le Petit

Semantics, implementations and evolutions

Victoria InterOp
• Semantics W.G. defined a webpage to publish vocabularies

SimDM / SimDAL use SKOS concepts
5 vocabularies
• Algorithms
• Data Object Types
• Physical Processes
• Physical Quantities
• Astronomical objects

➜ new SKOS concepts URIs
➜ publication of these vocabularies in Semantics page
➜ small modifications of SimDM -> version 1.1

Semantics, implementations and evolutions

Theory session : Thursday 14h-15h30 (Salon 3)
- N-body codes (David Goz)
- New URIs for theory SKOS concepts (Franck Le Petit)
- SimDM 1.1 (Hervé Wozniak)
- SimDM and VO-DML (Gerard Lemson)
- FileDB (Gerard Lemson)
- Promotion and implementation of theory standards

Semantics session : Friday 9h-10h30 (Salon 3)
- Vocabularies for Theory (Franck Le Petit)
