VO WS Basic Profile

André Schaaff (CDS)

VO Web Services Basic Profile

- **(Very) Brief presentation today**

  - **The 1.0 VO WS Basic Profile document is based on discussions and actions from the interoperability meetings in Cambridge MA, 24-28 May 2004, in Pune, 27-29 September 2004, in Kyoto, 16-20 May 2005 in Madrid, 6-7 October 2005 and in Moscow, 18-21 September 2006**

  - **Last versions done in the frame of VOTECH**

  - **See the different presentations for more information**

- **...**

VO Web Services Basic Profile (2)

- **Short reminder**

  - **Recommendation about how to implement Web Services in the frame of the VO**

    - Takes into account existing documents (WS-I Basic Profile, see http://www.ws-i.org/)

    - Includes IVOA existing work (VOSI, …)

    - Based on SHOULD, MUST, ..., rules

    - Provides tools to check the conformance (can check for example if getAvailability is present for a service, if it returns a result conform to the schema), ...

Last step

- **Make it in line with the future VOSI Recommendation**

- **Adapt the conformance checking tool to this "in line" version**

- **At the beginning of the BP definition it was decided that we should not recommend a list of SOAP toolkits ?**
  - **Do we change this ?**

- **Comments ?**
