

IVOA DAL WG

Opening Plenary Session
Baltimore Interop meeting
October 2008

Activities since last Interop

- TAP discussions, v0.3 draft and implementations
- SIAv2 discussions: Analysis, Scope and Concepts draft
- IVOA Data Access Layer: Service Architecture and Standard Profile draft
- Footprint discussions and implementations
- SIAv1 legacy draft preparation for PR process
- SLAP 1.0 preparation (on hold until DM release)

Agenda

Three different sessions:

- DAL 1: SIAP/SSAP/Footprints services
- DAL 2: TAP
- GWS/Reg/DAL joint session

DAL1: SIAP/SSAP/Footprints services

- SIAv2 analysis, scope and concepts presentation
- Experiences implementing SSA
- Footprint prototypes
- SIMDAP presentation to DAL group

DAL2: TAP

- As agreed during last Interop, prototyping is on progress
- 4 different TAP prototype implementations will be presented
