SAMP

- ADASS SAMP BoF

- B2: *Application Interoperability with SAMP* Fitzpatrick, Laurino, Taylor
- Aimed at developers who [might] want to SAMPise their tools

- samp.js repository

- JavaScript library for use with Web Profile
- Written as proof of concept only, but has been used for deployments
- Now hosted at <http://astrojs.org/>, source in github
- Web SAMP/javascript enthusiasts: please contribute

- Signed JSAMP hub available

- Can now JNLP-start JSAMP hub without warning about unverifiable signatures (I got a Thawte code-signing certificate)
- JSAMP 1.3-3 signed release next week(?) – otherwise signed copy available on request

- AOB?
