Registry in Santiago

Markus Demleitner, chair

Theresa Dower, vice-chair

- Registry Interfaces 1.1 – REC now?

- VOResource 1.1 – RFC since May (Sigh)

- RegTAP 1.1 – PR after VOResource is REC

- STC queries in the registry – little news

- Discovering dependent resources – RFC since March (Sigh)

- TAPRegExt 1.1 PR

Session

Saturday, 14:00-15:30, O'Higgins

- Pierre F.: Help Aladin v10 find and display your data collection
- Markus: The publishing registry proxy purx – no excuses any more not to register your service!
- Janet: RofR software releases and updates
- Pierre LS: A RofR mirror?
- Everyone: Roadmap review

Homework

- Are *your* standards registered? Are the records up to date?

- Are *your* services registered? Do you provide tablesets? Do you provide STC coverage?

- If you're providing or using VOEvent: Contribute to VOEventRegExt use cases (talk to Dave)

For this and more: talk to us while we're here.
