

The IVOA Radio Interest Group (Chair: M. Lacy, Vice-Chair F. Bonnarel)

- ▮ Provides a platform for discussion of how best to integrate radio data into the VO and a well defined point of contact for radio data archive projects with the IVOA.
- ▮ Since the last interop:
 - ▮ F. Bonnarel has drafted a joint TDIG/RIG note on discovery and access of Pulsar/FRB data.
 - ▮ We have continued to work on an ObsCore extension for radio data:
<https://github.com/ivoa/ObsCoreExtensionForVisibilityData>

Radio Interest Group

- ▣ In this Interop, we have one dedicated RIG session (20:30 Thursday). In addition, there are radio talks in the DAL_1 session on standards for radio data in the VO (F. Bonnarel, Tuesday 20:30 UTC) and the Apps session on visualizing SKA observations with Aladin (F., Bonnarel, 05:00 Thursday)
- ▣ Dedicated RIG session will discuss the SKA project in the VO, MADCUBA VO compliant single dish software, NRAO's new TAP service and VLA Sky Survey data in the VO.
