VOQL WG
Plenary Session

Sept 29, 2004

William O'Mullane

for Masatoshi Ohishi

- ADQL0.9
  - Use [ ] for dummy table names etc
  - Fix BNF for number (.89 is not an integer)
  - Promote to Proposed Recomendation
- DAL/Pseudo Tables
  - Prototyping needed (Yugi)
  - More interaction with DAL group
- Further Prototyping implemntation
  - ESAC
  - CDS

THURSDAY 5pm ..

Issues/Interfaces

- Space Time Coordinates
  - Part of ADQL (for regions)
  - Currently problem with tools (xsd.exe)to build parser
- Web Grid Services (for SkyNode)
  - Logging (real soon)
  - getRegistration (in interface not implemented)
  - getAvailability (already in SkyNode)
- UCD1+ should be returned by SkyNode for columns
- DataModel
  - 0.8 already suuprts Xpath type expressions into models
  - SkyNode may return model not just VOtable
