IVOA Data Access Layer
Opening Plenary

Doug Tody (NRAO/NVO/IVOA)

DAL WG – Opening Plenary

- **Goals for Moscow from Victoria Roadmap**
  - Advance SSA to V1.0 WD
  - Advance SLAP to PR
  - Promote legacy Cone Search to PR
  - Promote legacy SIA V1.0 to PR

DM/DAL Joint Session

- **SSA in Moscow**
  - Review draft 1.0 Spectrum data model
  - Review draft 1.0 SSA protocol (status)

- **Major progess since Victoria**
  - Uniform common data model achieved late September
  - Revision to SSA protocol in progress since then

- **Final Steps**
  - Finalize 1.0WD documents following Moscow meeting
  - Proceed with interoperability implementations
  - Final changes, advance to PR

- **Planned/Updated Implementations**
  - VOSpec, TSAP, ESO, JHU, MAST, SAO, VOClient, IRAF, …

VOQL/DAL Joint Session

- **Table Access Protocol**
    - Hot topic since Victoria
    - "Simple" table access desired
    - Common to both VOQL and DAL

- **Goal**
    - Initiate project
    - Discuss what is required
    - Joint "tiger team" (Pedro) will carry forward

General Session

- **Spectral Line Access (SLAP)**
  – Jesus Salgado, Pedro Osuna

- **Special Topics**
  – Anita Richards – Radio Data Access
  – Aurelien Steve – DALToolKit and Ingestor
  – Norman Gray – UTYPE and URLs

- **Roadmap Update**
  – SSA, SLAP, SCS, SIAV1, SIAV2, TAP, SNAP, generic dataset
