Session 1: S*AP Progress

Thurs 27 Sept 11:30 - 13:00 Hoyle Committee Room

Talks:

- VO for Ground-based Optical Spectroscopy (Petr Skoda)
- Demo of spectrum service features including SSA and spectrum DM implementation (Laszlo Dobos)

Followed by an update and discussion of:

- SSA
- SIA
- SLAP

Session 2: TAP

Fri 28 Sept 08.45 - 10.15 Earth Science Meeting Room

TAP progress report and discussion of:

- Introduction
- Defining a standard
- Information-schema like approach to service metadata
- Beijing decision to drop "Simple" access methods
- Note: "Homogeneous Access to Tabular Data"
- Note: "Table Access Protocol Design Analysis"

Session 3: GWS/Reg/DAL

Fri 28 Sept 13:15 - 14:45 Lecture Theatre

This will be a joint session with the DAL- and Registry-WG to discuss and explore cross WG opportunities and issues. Specifically we need to work out the roadmap for VOSI and getCapabilities() getAvailability() as discussed in Beijing and reach agreement about content metadata scope, format and provision.
