

Grid and Web Services Session 1

André Schaaff, Andreas Wicenec

Grid and Web Services Working Group
27 September 2013

IVOA Hawaii, 26-28 September 2013

Since the last Interop

- In Heidelberg we had 2 sessions
 - One was dedicated to workflows
 - A mail was sent recently on the WG list to define a better view of what we could now do in the Workflow frame.
 - Will be discussed tomorrow.
 - A topic about Abusive users was initiated and will be discussed also tomorrow. Feel free to present us your own experiences and reactions.
- After the PDL RFC validation, currently no other standardisation work
 - New needs and updates of existing standards will be discussed tomorrow

Session 1

- Data sharing using SciDrive (former VOBox), *Dmitry Y Mishin*
- UWS in action: The CANFAR VM lifecycle web service, *Brian Major*
- Experimenting clouds with HEALPix surveys, *André Schaaff*
- Results of the public RFC for PDL: answers / modifications, *Carlo Maria Zwölf + discussion*
