

ADQ-2.1

Status Topics for Discussion

Dave Morris
[M. Molinaro on behalf of]

Open Topics

- **BITWISE operators/functions**
- **BNF validation**
- **DB backend support volunteers**
- **Test data set**

BITWISE

- **Prior to June interop we had functions**
- **At the June interop we accepted operators**
- **We currently have both operators and functions**
- **Do we still want to keep functions ?**

BNF grammar

- **BNF currently is manually maintained**
 - Do we want to validate it?
 - How?

DB backend support

- **Check impact of new and existing features on used/existing DB backends:**
 - PostgreSQL, MySQL, MariaDB, HyperSQL, SQLServer, SQLite, Oracle, Derby, ...
- **Volunteers needed**
- **Wiki topic to be setup**

Test Data Set

- **Implementations validation**
 - Test data set
 - ADQL queries
 - Known results
