

CSP Meeting - 02 of October 2023 at 16UTC

Apologies: CC

Attendees: AN, FC, CA, MA, ML, MM, JE, ES, PF, RB, RB

Minutes:

- **Welcome** new members Rachana Bhatawdekar and Rosie Bolton.
- **In prep of November Interop**
 - Status on plenary sessions. The CSP doesn't ask for a particular topic for this short interop meeting.
 - In person attendance - About 1/2 of us will be present and ~1/2 will connect remotely.
 - Review of ADASS session on Science with Data Archives (Monday).
 - <https://adass2023.lpl.arizona.edu/event-categories/science-data-archives>
 - Check Presentations, Tutorials and BoF
 - AN has contacted the relevant IGs to see if the needs / requirements highlighted on those presentations need to be reported / folded back into the interop. In particular TDIG and RadiolIG.
 - Webpage - feedback - hackathon. Needs to be organised. JE asked TD, who cannot take charge. Need two people, ideally one from the CSP.
 - AN will send around the presentation on Status report. JE asks to show / remind the Terms of Reference.
- **CSP Status report:**
 - **CSP and IGs:**
 - High Energy Group - it has been very active, 3 meetings and information is collected in the twiki: <https://wiki.ivoa.net/twiki/bin/view/IVOA/HEGroup>
 - Radio IG proposed an extension of Obscore. AM asked for feedback from CSP on use cases and how ADQL queries can answer those use cases. CSP works with RadiolIG to be sure that is done. Work in process.
 - **Presentation** at NASA Science Mission Directorate Annual Data Repositories Workshop.
 - VS and TJ asked AN for feedback on "lessons learned" for a talk on "How the IVOA understands user needs". Done.
 - JE asks if we could see the presentation. AN will ask VD.
