VOEvent status

- Hotwired2 very successful, see the presentations
- The community is active and growing like a weed (www.skyalert.org)
- We will return to the Interop with sessions in the Fall
- We are working on a Hotwired Book
- v2.0 is moving forward, v1.11 continues serving diverse operationally deployed needs
- SEAP is top priority after v2.0
- Time series discussions are converging, deserves broader context
- We are eager to put vocabularies to good use
- Work continues on portfolios, VOEventStream, other advanced features
- Have proposed time domain conference for SPIE 2010
- Likely Hotwired3 in 2011
