

# *VOTable session in Strasbourg*

- The VOTable session in Baltimore was claimed to be the last one... but this one should finally !
- One VOTable session near the end of the meeting (Thursday afternoon, 14:00) will enable, I hope, to add the final adjustments to VOTable1.2 to fulfill applications' needs

# VOTable session in Strasbourg

Preliminary agenda (*may evolve during the meeting*)

- VOTable and its adaptation to other groups' needs:
    - TAP: is anything more needed ?
    - other models concerned (simDAP?)
  - Final version of VOTable1.2:
    - very last comments (VOTable document + Note on STC usage in VOTable documents) ==> REC
    - implementors' comments ?
  - Future of VOTable WG
- 
-
