

Applications Working Group

Chair: Tom McGlynn

Vice Chair: Mark Taylor

Applications 1

Tuesday 4:30-6:00 PM

- Demonstrations of non-SED related software
- Talks on photometry, cross-matching, classification and data publication
- Talks should include where relevant:
 - What kinds of science has been enabled?
 - What lessons have been learned about relevant standards?
 - What can the IVOA do to make this work better?

Applications 2: SAMP and SED

Wednesday 4:00-5:30 PM

- SAMP v1.2 review of RFC and current status
- SAMP and web applications
 - New profiles for web pages
- SED demos
 - How do these tools address issues brought up in SED use case session.

Use Case Reports

- Use Cases 1: SEDs
 - Wednesday 9:00-10:30 AM
 - Led by Paolo Padovani

- Use Cases 2
 - Wednesday 11:00 AM – 12:30 PM
 - ObsTAP, led by David Schade
 - Search by list or class, led by Mark Allen

Provide inputs for discussion to WG sessions.
