Data Access Layer

- review

- sessions

- roadmap

Data Access Layer

- REC since last interop:

  – Simple Line Access Protocol (SLAP) 1.0

- WD since last interop:

  – some work toward discussions this week

- some new ideas and proposals

Data Access Layer

- DAL-1
    - Light Curves via SSA and TAP
    - Galaxy Datacubes
    - FITSTAP
    - validation of DAL services

Data Access Layer

- DAL-2

  – SSA cutouts and issues

  – Data Access and Data Linking

  – DALI discussion

  – PQL discussion

Data Access Layer

- Registry-DAL joint session
  - TAP extension schema
  - generic DAL extension schema?

Data Access Layer

- Theory-DAL joint session
    - TAP + SimDB
    - SimTAP
    - S3/SimDB/SimDAL
    - lots of discussion!

Data Access Layer

- short term:
  - DALI
  - PQL
  - DAL and/or TAP registry extension
- followed by:
  - depends on science cases TBD this week
  - availability of cube data drives need for SIAv2
- goal: develop roadmap this week
