**12-15 MAY 2015 CANARY HOTEL SANTA BARBARA, CA**

# HOT-WIRING THE TRANSIENT UNIVERSITY

**Summary and discussion  
CSP session, Thursday, 14:00, Grüner Saal**

"The history of astronomy is a history of receding horizons" - Edwin Hubble

- Next generation surveys
- All sky monitors
- Early Gaia transients
- Gravitational waves
- Millions of transients/night
- Community alert brokers
- Where should the VO go next?

<http://www.wireduniverse.org>

# Also:

- VOEvent Transport Protocol mature draft.
  - Moving to PR shortly.
- User focused VOEvent documentation & getting started guide:
  - <http://voevent.readthedocs.org/>
- New release of the *Comet* VOEvent transport system:
  - <http://comet.transientskp.org/>
- Work continues on VOEventRegExt.
